

A dressy affair for any occasion. Very much out of the ordinary and justly popular for its fine fitting qualities, a satisfactory accompaniment for a party gown, or equally acceptable for less formal occasions.

THE ROAD OVERALLS.

this morning at daylight from Sa: trancisco, bringing four days' mai from the mataland and a large num ber of passengers. The list for Hono lulu was unusually large and the wor of the Promotion Committee arems to be making itself felt in the large num-her of tourists who are arriving fo-this acason of the year. The freigh-for this port was small, amounting to only twenty-six tons. The through freight is composed of 2700 tous of microflaneous merchanding

miscellaneous merchandise.

The Korea had a very pleasant trip from San Francisco, the best of weath er being experienced. The passenger on board formed a most congenta gathering and on Saturday night celebrated that brated their approach to Honolulu b a concert in which many numbers wer

excellently rendered.

There are a number of missionarie on board the Korea making their re turn to Japan and China after vaca-tions in the States. Perhaps the ber know of them is Dr. Young J. Aller who has been a worker in the Orien
for many years. He went home on
vacation last May by way of Seattle
where he was entertained by the vai
tions churches, and is now going bac
to take up his work once more.

The Korea is lying at the naval does

and will take in water today, suffir for the Oriem this afternoon at o'clock. The Korea has a new captain on board. S. Sandberg, who has been acting in the same capacity on the San Jose, running between San Francisco and Panama has replaced Capt. Sca-gury, who will spend a vacation of several months on his ranch home in Central California.

The Korea will take away a number The Korea will take away a number of the crew and officers of the Man-churia, among them being the sixth officer, stewardssa and one of the under stewards. Part of them will be given positions on the Korea and the members of the Asiatic crew who leave will be taken home as the crew who leave

He has for some time past been suffer-ing from blood poisoning in the leg. The condemnation suit of the United states against the II Estate for land at Pearl Harbor came up before Judge Dole today. The United States rested after proving through B. H. Brooks that the land was needed, and through L. L. McCandless that it was, worth \$200 an acre, or \$10,000 as a while.

### TENNIS AT HALEIWA

The tennis tournament held yesterday at Haleiwa was a disappointment in the number of players who entered, but this was more than made up in the high quality of the play indulged in by those present. It is the unanimous opinion of both players and spectators that the last match showed the best tennts that has been played in years, all four of the contestants strove with all the skill and muscle they pos-sessed to win the honors. The closeness of the play can be judged from the fact that in the first set of the clas-ing match the losers were within one point of winning the set twice, and in the second re, the winners were once within one point of winning the set which they lost. Champion Roth has not yet accounted for the surplus steam Le got up, but admits that he was run-ning on his highest gear. The first match in the morning was between Major Van Vliet and R. C. Van Vliet, Jr., against W. P. Roth and W. H. Babbitt, which was won by the latter, 1-6, 6-3, 6-3. The second match was between the Van Vliets and S. II. Derby and C. G. Bockus, won by the last named, 1-6, 6-2, 6-2. In the afternoon the winners came together and the score resulted, 8-6, 5-7, 6-1.

Babbit and Roth winnig the match Manager Bidgood is to be congrat-ulated on his thoughtfulness in pre-senting two handsome cups, in getting the court in first class condition and in caring for all the numerous wants of the players. When the next tour-nament is held at Haleiwa there ought to be a far larger representation of ten-nis enthusiasts, the scarcity of players yesterday being the only flaw in an

# HEAT vs. COST

If you will consider the cost of the wood alcohol you use in your chafing dish lamp and compare it with the expense of cooking on a gas stove you will take to the latter at the expense of throwing away the chafing dish. Gas will heat your cooking utensil in chorter time and for less money than any other fuel. It is the most economical and cleanest for every purpose. If you doubt this we will give you a hot plate with two burners to aid in convincing you that we are right. If you will consider the cost of the

# The Leonard

Leonard Clearable Refrigerators are built with eight walls, each wall as follows: outside is wood, then dead air space, then a layer of parchment sheathing, then a layer of mineral wool, then a waterproof sheathing and finally the inside zine wall. Air cannot possibly pass through these barriers and the air within is dry and pure. The doors are airtight.

The ice is protected from outside heat and cannot melt rapidly. Take a match and leave it in the Leonard all night; then strike it. This is the test for dampness. Very few refrigerators can stand it. The

Leonard is dry and keeps food pure and fresh. The Leonard Cleanable Refrigerator is easiest in the world to clean. The inside parts are made to be removed and you can get into every cor-

ner. The circulation of air is founded on the latest scientific principles. It is economical because it saves ice and is strongly constructed. We
